O Mnie

Nazywam się Tigran, od ponad roku intensywnie uczy się programowania i rozwijam swoje umiejętności w [frontend / full-stack development]. Realizowałem praktyczne projekty w ramach nauki, dzięki którym zdobyłem maksimum doświadczenie, i teraz szukam pierwszej pracy w IT, żeby dalej się rozwijać.

Lubię uczyć się od innych, współpracować w zespole i stawiać sobie nowe wyzwania. Jestem zmotywowany i zaangażowany w to, co robię, i chętnie podjąłbym się pracy w zespole, gdzie mógłbym zdobywać cenne doświadczenie i wnosić swój wkład.

Obecnie pracuję nad projektem aplikacji w React i rozwijam umiejętności w Node.js.

Umiejętności

Frontend: Backend: Bazy danych:

JavaScript, Node.js, MySQL,

React, React Router, Express, Narzedzia:

HTML, bcrypt Visual Studio Code,

CSS, SCSS, Sass Version control: Postman,

Git, GitHub

Doświadczenie zawodowe

Grafik-Drukarz

[DrukowaneTasiemki] - [Łódź] (okres pracy: 2022 - 2024)

Przygotowanie projektów graficznych do druku, obsługa ploterów oraz kontrola jakości wydruków.

Języki

Angielski: podstawowy

Rosyjski: biegły Armeński: ojczysty
